Subject: Dexter offers Valcrum Oil Caps on Axles and Aftermarket Kits

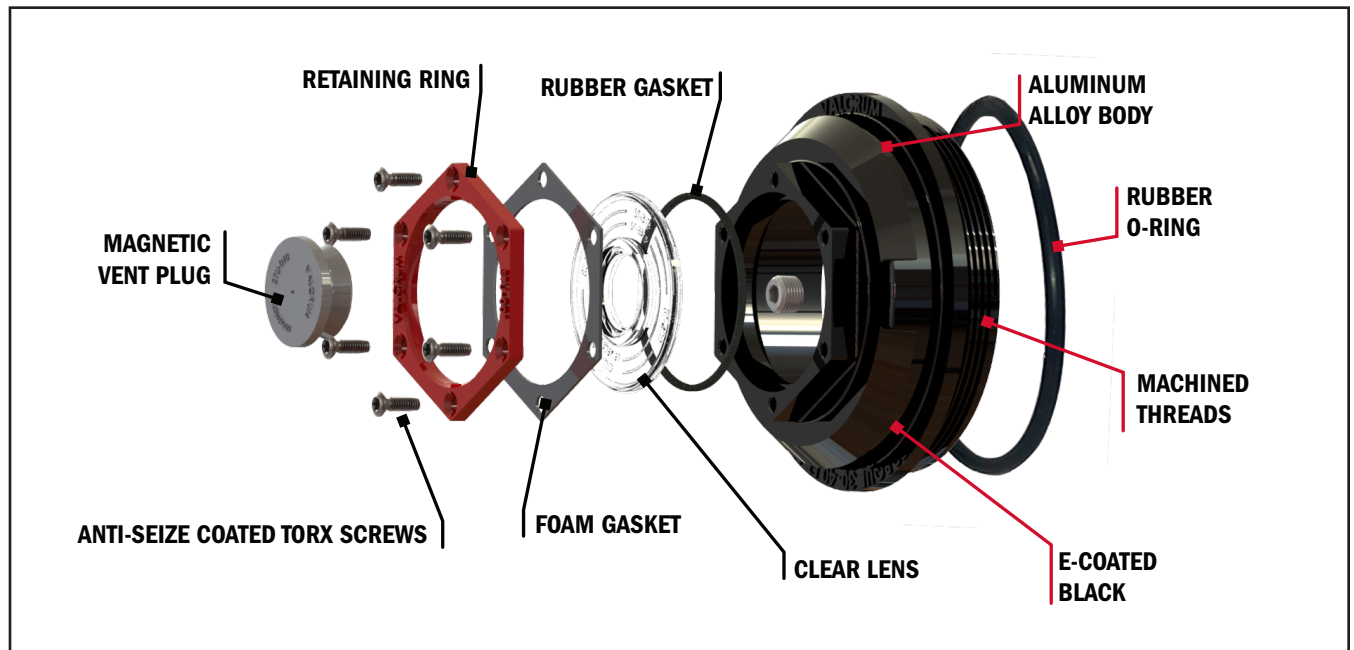

Dexter is pleased to introduce Valcrum oil caps installed on new Dexter axles and as an aftermarket upgrade for existing axles in the field. This product provides an option to upgrade from the existing screw in Lexan™ oil cap for owners seeking an improved look and quality.

The Valcrum cap design includes a similar fit, form and function to the Lexan version. The Valcrum caps use the same O-rings as the existing Dexter caps, as well as the same size rubber fill plug. Installation torque can be found on the cap's aluminum alloy body and oil level lines in the clear lens help to ensure proper torque and oil level.

Valcrum's oil caps have many great features and benefits, such as:

- Durable aluminum alloy body resists damage, limiting road failure and downtime
- Vented fill plug ensures oil seal life
- Fill/Drain port allows for easy access and accurate filling of oil cavity
- Can be used in both oil and grease applications
- Black e-coated finish with red anodized retaining ring
- Long lasting rubber O-ring seal
- Complete aftermarket product line to fit most popular brands: Dexter, Rockwell, Kodiak, AL-KO, Hayes and Lippert

EXPLODED VIEW OF VALCRUM OIL CAP

AVAILABLE ON AXLES:

The Valcrum cap option has been tested and approved as an upgrade to the long-standing Lexan cap on all Dexter axles for oil and grease applications in 5,200 to 15,000 lbs. capacity sprung and Torflex® axles. Axles assembled by Dexter ensure proper installation and torque which is backed by a 5-year limited warranty.

Dexter axle models Valcrum caps are available on:

SPRUNG AXLES	TORFLEX AXLES
D150	#14
D120	#14T
D100HD	#13D
D100G	#13G
D90	#13T
D80*	#13*
D80N*	#13N*
D72*	#12V*
D70*	#12T*
D60*	#12*
D52*	#11*

*Grease applications require the hub-drums to be threaded to accommodate Valcrum caps.

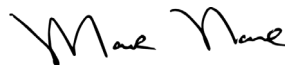

AFTERMARKET AVAILABILITY:

Dexter is excited to offer the full line of Valcrum oil caps and accessories providing customers with the flexibility to retro-fit Valcrum caps onto Dexter, Rockwell American, Kodiak, AL-KO, Hayes and Lippert® products. Partnering with Valcrum to provide an increased level of service and availability, Dexter will become the main point of contact for distributors seeking the Valcrum product.

Valcrum product will continue to be provided in the same Valcrum aftermarket packaging and offered in case quantities only. The Dexter part number represents the case quantity as listed in the chart below. Customers seeking quantities lower than a case value should contact a Dexter distributor nearest to them.
